Please RSVP to Jim Pearson (404) 894-1753 or rsvp@sae-atlanta.org no later than 4pm on Friday, September 23rd. Please leave your name, number attending and menu choice. You may also RSVP and pay with a credit card on the web at <http://atlanta.sae.org>. We only take cash and checks at the door.

Meeting Topic:

Honda Diagnostic Tester for Outboard Motors

Jeff Christensen will be presenting the Honda Diagnostic System (HDS) Marine Pocket Tester. This is the same system that Honda uses to diagnose their automobiles, motorcycles and personal watercraft. The presentation will look at what the HDS is, what it is capable of doing and how to use it on Honda fuel injected outboard engines. Jeff has been at American Honda Motor Company since 1997 and is currently the Power Equipment and Marine Instructional Designer.
