or send an email to rsvp@sae-atlanta.org no later than **noon** on Friday, **February 25th**

Meeting Topic

Lund International has been ranked as one of the top 10 automotive employers in the state. Since 1935 they have been manufacturing automotive accessories for aftermarket and OEM customers. They have a line of over 36 products from Ventvisors and Bugflectors to body kits. Almost all of them are manufactured here in Lawrenceville.

On the tour you will get to see the injection molding, vacuum forming, drape forming and metal stamping operations, tool shops for injection molding and thermoform tooling, as well as reverse engineering and prototyping.

We will meet first at Golden Corral for dinner then drive over to the plant for the tour followed by a question and answer session. This is a busy manufacturing operation so please dress appropriately and be prepared for some walking.
